

26. Deutsche Physikerinnentagung 2022 (German Conference of Women in Physics)

Friday 25 November 2022

Physics Talks - Geophysics - FTU Aula (09:00-10:30)

time	[id] title	presenter
09:00	[49] Exploration of sub-marine resources using electromagnetic methods	SCHWALENBERG, Katrin
09:15	[92] Effects of seismic anisotropy and attenuation on first-arrival waveforms recorded at the Asse II nuclear repository	Ms. SORTAN, Sonia
09:30	[35] Seismic Anisotropy Tomography from Glacial Microseismicity: an Antarctic Example	KUFNER, Sofia-Katerina
09:45	[46] Fiber optic distributed acoustic sensing of local earthquakes at BFO	Dr. KARAMZADEH TOULAROUD, Nasim
10:00	[77] Distributed seismic sensors for Newtonian Noise Cancellation in Gravitational Wave Detectors	ISLEIF, Katharina-Sophie
