

## 26. Deutsche Physikerinnentagung 2022 (German Conference of Women in Physics)

### Friday, November 25, 2022

#### Physics Talks - Meteorology and Atmospheric Physics - 401 (4:30 PM - 6:00 PM)

time	[id] title	presenter
4:30 PM	[125] Why can we trust climate model simulations of ozone depletion chemistry?	SAUNDERS, Laura
4:45 PM	[63] Mixed-phase clouds: a journey between observations and climate models	BRUNO, Olimpia
5:00 PM	[87] Microphysical Pathways Active within Thunderstorms and Their Sensitivity to CCN Concentration and Wind Shear	Prof. HOOSE, Corinna
5:15 PM	[37] Further characteristics of the atmospheric turbulent wind: Periods of constant wind speed and waiting times between gusts	MORENO, Daniela
5:30 PM	[89] Recent progress in the traceRadon project: Measuring outdoor Radon down to lowest activity concentrations	Dr BALLÉ, Tanita Johanna
