

## 26. Deutsche Physikerinnentagung 2022 (German Conference of Women in Physics)

### Friday 25 November 2022

#### Physics Talks - Solid State Theory - 401 (09:00-10:30)

time	[id] title	presenter
09:00	[66] Building Blocks for Cluster Mott Insulators	JAYAKUMAR, Vaishnavi
09:15	[68] Magnetic states and high-pressure enthalpy landscape of manganese sulfide polymorphs: a first-principles study	Prof. NÚÑEZ-VALDEZ, Maribel
09:30	[75] Analogues of light and gravity in the collective excitations of quantum magnets	Ms. CHOJNACKI, Leilee
09:45	[132] Quantum critical Eliashberg theory in a finite dimensional SYK model	STANGIER, Veronika
10:00	[134] Influence of Coulomb correlations on high harmonic generation in monolayer TMDC materials	NEUHAUS, Josefine
