

26. Deutsche Physikerinnentagung 2022 (German Conference of Women in Physics)

Saturday, November 26, 2022

Physics Talks - Astroparticle Physics - Gaede-Hörsaal (9:00 AM - 10:30 AM)

time	[id] title	presenter
9:00 AM	[26] Development of a Second-Level Trigger for the Autonomous Detection of Air-Shower Radio Emission	PETEREIT, Jelena
9:15 AM	[70] Improving the external trigger of AERA for extensive air showers at the Pierre Auger Observatory	Ms UZEIROSKA, Rukije
9:30 AM	[72] Radio neutrino detection with RNO-G	TERVEER, Karen
9:45 AM	[115] MACS J1423.8+2404: gravitational lensing by a massive, relaxed cluster of galaxies at $z = 0.54$	NENCY, Patel
10:00 AM	[116] Observing Dark Matter in Galaxy Clusters with Strong Lensing and MUSE Spectroscopy	CERNY, Catherine
10:15 AM	[129] Strong gravitational lensing: Nature's cosmic telescope to reveal dark matter and the faintest galaxies in the universe	MAHLER, Guillaume
