

26. Deutsche Physikerinnentagung 2022 (German Conference of Women in Physics)

Saturday 26 November 2022

Physics Talks - Astroparticle Physics - Gaede-Hörsaal (09:00-10:30)

time	[id] title	presenter
09:00	[26] Development of a Second-Level Trigger for the Autonomous Detection of Air-Shower Radio Emission	PETEREIT, Jelena
09:15	[70] Improving the external trigger of AERA for extensive air showers at the Pierre Auger Observatory	Ms. UZEIROSKA, Rukije
09:30	[72] Radio neutrino detection with RNO-G	TERVEER, Karen
09:45	[115] MACS J1423.8+2404: gravitational lensing by a massive, relaxed cluster of galaxies at $z = 0.54$	NENCY, Patel
10:00	[116] Observing Dark Matter in Galaxy Clusters with Strong Lensing and MUSE Spectroscopy	CERNY, Catherine
10:15	[129] Strong gravitational lensing: Nature's cosmic telescope to reveal dark matter and the faintest galaxies in the universe	MAHLER, Guillaume
