

Radio 2017

Thursday, October 5, 2017

Science symposium: "Radio astronomy in the multi-frequency era", part I - Room Egloffstein (11:30 AM - 1:00 PM)

-Conveners: Matthias Chair: Kadler

| time | [id] title | presenter |
|----------|--|------------------------|
| 11:30 AM | [8] Pulsar science with the German LOFAR stations | Dr TIBURZI, Caterina |
| 11:45 AM | [9] LOFAR observations of the quiet solar corona | Dr VOCKS, Christian |
| 12:00 PM | [7] The low-frequency radio continuum—star formation rate relation in nearby galaxies with LOFAR | Dr HEESEN, Volker |
| 12:15 PM | [24] LOFAR observations of the distant blazar S5 0836+710 | KAPPES, Alexander |
| 12:30 PM | [14] Progress Report: LOFAR observation of NGC 4631 | Mr BLEX, Stefan |
| 12:45 PM | [16] Deep L-band VLA observations of the Toothbrush cluster | Ms RAJPUROHIT, Kamlesh |
