

# Introduction to Mathematica

## Symbolic computing and simple simulation visualization

### CDF Player

#### *Linux*

1. Download most recent version of CDF from [www.wolfram.com/cdf-player/](http://www.wolfram.com/cdf-player/)
2. Open terminal and execute the following:  
`chmod +x $HOME/Downloads/CDFPlayer_<version>_LINUX.sh`
3. Return to your downloads folder and execute:  
`sudo ./CDFPlayer_<version>_LINUX.sh`
4. The CDF player will now install. You can run it using the executable in the dash.

#### *Windows*

1. Download most recent version of CDF from <http://www.wolfram.com/cdf-player/>
2. Double-click downloaded executable to install.
