

Astroteilchenphysik in Deutschland - Status und Perspektiven 2014

Monday, September 29, 2014 - Wednesday, October 1, 2014

Karlsruhe Institute of Technology (Campus South)

Scientific Program

HAP Meeting (29th September)

General meeting of the Helmholtz Alliance for Astroparticle Physics

Astroteilchenphysik in Deutschland (30th September and 1st October)

Biannual meeting "Astroteilchenphysik in Deutschland"

Public Astroparticle-SLAM (29th September, 18:30)

We plan to organize an "Astroparticle-SLAM" in which PhD students of the German Astroparticle Community present their research topic in an unconventional and appealing way within 12 minutes. The Astroparticle-SLAM will be public and there will be prizes for the best contributions. Some more details are described in the timetable ... please contact andreas.haungs@kit.edu if you are interested.

Public Evening Lecture (30th September, 18:30)

Public Evening Lecture "Die Galaxie in einem neuen Licht: Astronomie mit Gammastrahlen" by Werner Hofmann (Max-Planck-Institut für Kernphysik, Heidelberg) in the Gaede-Hörsaal at Campus South

Public Evening Lecture (1st October, 18:30)

Public Evening Lecture "Kosmische Teilchen: Lesen von unsichtbaren Schriften" by Elisa Resconi (Technische Universität München) in the Gaede-Hörsaal at Campus South
