

Big Data Science in Astroparticle Research - Workshop

Tuesday, February 18, 2020

Deep Learning (4:20 PM - 6:00 PM)

time	[id] title	presenter
4:20 PM	[36] Modern Machine Learning in Astronomy (exact title & title tbc)	Dr POLSTERER, Kai
5:00 PM	[53] Determining the distribution of interstellar gas with information field theory	Dr VITTINO , Andrea
5:20 PM	[51] Searching Pulsars Using Neural Networks	Mr KÜNKEL , Lars
5:40 PM	[49] The Astrophysical Multimessenger Observatory Network (AMON)	Prof. MOSTAFA, Miguel
