

# HAP Dark Matter 2015

## Tuesday, September 22, 2015

### WIMP models and (laboratory) searches - Lehmann Lecture Hall Geb. 30.22 (4:00 PM - 6:20 PM)

time	[id] title	presenter
4:00 PM	[15] Direct searches for WIMPs, challenges & perspectives with liquid noble gas detectors (Rafael Lang, Purdue)	
4:40 PM	[16] Direct searches for WIMPs, challenges & perspectives with cryogenic bolometers (John Orrell, Pacific Northwest National Laboratory)	
5:20 PM	[17] The EDELWEISS-III Search for Low Mass WIMPs (Lukas Hehn, KIT)	
5:40 PM	[28] Current status of the CRESST experiment (Holger Kluck, HEPHY Vienna)	
6:00 PM	[29] Production of CaWO <sub>4</sub> Crystals for the CRESST Experiment & Development of Neganov-Luke Amplified Cryogenic Light Detectors (Michael Willers, TU München)
