

# Precipitation and Flash Flood Prediction from Minutes to Days

## Monday, October 5, 2020

**Towards seamless prediction: Towards seamless prediction (9:00 AM - 12:30 PM)**

-Conveners: Roland Potthast

time	[id] title	presenter
9:00 AM	[1] Introduction	POTTHAST, Roland
9:20 AM	[69] The High-Resolution Rapid Refresh (HRRR) numerical weather prediction model	TURNER, David
10:00 AM	[74] SINFONY - the combination of Nowcasting and Numerical Weather Prediction on the convective scale at DWD	BLAHAK, Ulrich
10:40 AM	Coffee break	
11:00 AM	[62] The research group on Near-Realtime Quantitative Precipitation Estimation and Prediction (RealPEP)	TRÖMEL, Silke
11:40 AM	[6] Moderated Discussion
